

Fall Workshop 2025 @ Columbia College

Saturday, November 15, Columbia SC

Plenary Speaker, Jordon Gilmore Ph. D
Associate Professor, Department of Bioengineering
Clemson University

*"From Algorithms to Outcomes:
Harnessing AI in Biomedical
Devices for Improved Healthcare"*

This annual workshop will enable high school students and teachers to participate in a full day (9:00 a.m. through 3:30 p.m.) of science-focused activities. Hosted by the South Carolina Junior Academy of Science (SCJAS) and Columbia College, the workshop will include hands-on activities, a science trivia competition (2 teams per school may participate) and professional development for teachers (PD).

Registration for the Fall Workshop will open on October 1. Registration fee of \$25 includes a light breakfast, lunch and participation in four sessions including the opening plenary address. See the links below for workshop registration and science trivia team registration.

Remember Registration Opens on October 1.
